"Kinzl's Companion on the Greek world in the classical period is a work of unrivalled geographical and conceptual scope. The volume demonstrates that Greek history consists of much more than political institutions and great power conflicts; it integrates literary and material evidence; it amounts to one of the most successful attempt (sic) at creating a non-Athenocentric history of classical Greece.

A Companion to Classical Electrodynamics

Classical studies have a history, as a reception of Greek and Roman culture and its own histories and as a reception history of that history and of

that reception; these intellectual quests for knowledge, for negotiating conditions of 'knowledge', should segue into any worthwhile commentary that can be offered on the past's propulsion into any thinking future (p.471).
