In ufology, a close encounter is an event in which a person witnesses an unidentified flying object. This terminology and the system of classification behind it were first suggested in astronomer and UFO researcher J. Allen Hynek's 1972 book *The UFO Experience: A Scientific Inquiry*. Categories beyond Hynek's original three have been added by others but have not gained universal acceptance ...

Whether the encounter was one that was planned or not, we should note once more that the same telepathic messages received by the witnesses that morning were the same that shows up in multiple cases of alien abduction and close contact. Ones that revolve around the misuse of technology and the damage happening to the planet.
