Are You an Egalitarian Couple? | Psychology Today

This volume leads from Hillman's principal essay on typology, "Egalitarian Typologies versus the Perception of the Unique," to his expansive "Inquiry into Image." Hillman instigates an active re-visioning, re-imagining, of psychology as a self-generative activity of the soul: "An image is given by the imagining perspective and can only be perceived by an act of imagining."

This typology has been very influential in the field of risk perception research. It proposes four major biases: Individualist, Egalitarian, Hierarchist, and Fatalist, plus a fifth asocial Autonomous perspective. Individualist Edit. Individualists experience low grid and low group.

Cultural theory of risk | Psychology Wiki | Fandom

In any case, I first became acutely aware of the objective-subjective conundrum reading Egalitarian Typologies Versus the Perception of the Unique, by James Hillman (Eranos Lecture 4, Spring Pub., 1986), whose school of Archetypal Psychology is founded on the conception of psychological creativity (rather than pathology and/or the presupposition of a normative psychology). This small book of 59 pages contains examples from poets like Wallace Stevens, to help articulate its main points.
