The fifth edition of Global Biodiversity Outlook (GBO-5) is a final report card on progress against the 20 global biodiversity targets agreed in 2010 with a 2020 deadline, and offers lessons learned and best practices for getting on track. Towards a landmark new global post-2020 biodiversity framework: GBO-5 synthesizes scientific basis for urgent action.

The goal-based outcomes (GBO) tool is a simple and effective method to measure progress and outcomes of an intervention. It grew out of work with children, young people and their families in mental health and emotional well-being settings but can be used in any setting, that is change-focused and goal-oriented – including adult and physical health contexts.

The Goal-Based Outcome (GBO) Tool - Goals in Therapy

GBO provided me a great launch pad for stepping into the corporate world, arming with tools and best practices critical for success. The depth and breadth of GBO program curriculum supplemented with regular cadence of industry interactions gave me a preview of what's to come and the confidence to excel both personally as well as professionally.
