# Access Free General Specifications For

A technical specification (tech spec) is a document that explains what a product or project will do and how you'll achieve these goals. In a tech spec, show your client and team members what problem you're solving, the goals or requirements for your project or product, and how you plan to achieve this.

specifications, the SPL at which a THD of 0.5% or 1% occur is useful, because this is the point at which you start to detect audible distortion. In general, the distortion of a circular diaphragm will double with a 6 dB increase of the input level, so you can calculate other levels of THD by using this factor.
