Power

Guns, Germs, and Steel seek to answer the biggest question of post-Ice-Age human history: why Eurasian peoples, rather than peoples of other continents, became the ones to develop the ingredients of power (guns, germs, and steel) and to expand around the world. An extraterrestrial being visiting the Earth 14,000 years ago could have been forgiven for failing to predict this outcome, because ...

In *Guns, Germs, and Steel*, Jared Diamond outlines the theory of geographic determinism, the idea that the differences between societies and societal development arise primarily from geographical causes. The book is framed as a response to a question that Diamond heard from Yali, a charismatic New Guinean politician.
