Debates on a military solution to Iran's nuclear program are heavily polarized between those arguing that a threat of war and a preventive non-proliferation military strike can be a solution and those arguing that military action will only accelerate Iran's nuclear program. The truth is that it is highly unlikely that Tehran would abandon its nuclear program after a military strike.

Nicola Whiston has a superb collection of Knowledge Organisers which follow the White Rose Schemes of Learning, all are available on TES Resources, on TES editable versions are available as well as the free pdf resources. These are really attractive and I believe appeal to students. I think these are excellent to use in class alongside teaching a topic.
