Origins Of Human Communication Michael

Human-animal communication is the communication observed between humans and other animals, ranging from non-verbal cues and vocalizations to the use of language.. Some human-animal communication may be observed in casual circumstances, such as the interactions between pets and their owners, which can reflect a form of spoken, while not necessarily verbal dialogue.

The practice of human sacrifice was very common in ancient China, particularly during the Shang Dynasty—the first Chinese dynasty with written records. In fact, archaeological evidence suggests that human sacrifice was practiced on a grand scale during the Shang dynasty. The purpose was twofold: political control and religious communication.
