turn into more of a whining or droning.

How Can I Tell If I Need a New Fuel Pump? | CARFAX

There was a manual pump you'd pull back and forth to pump the gas out of the underground tank into the cylinder, which was 8 or 10 feet tall. From there the gas flowed by gravity down the hose into the car. Next came the electric pump, but people still wanted to see the gas, so they had a small cylinder, called a sight glass.
