With a totally integrated, comprehensive, browser-based, New Jersey only Student Information System. Realtime delivers the ease and functionality that you wish you had at a budget-friendly annual fee. Realtime's fully integrated system has everything you need to manage your school effectively in NJ.

Realtime Information Technology | Empowering Your Staff To ...

Real-time computing (RTC), or reactive computing is the computer science term for hardware and software systems subject to a "real-time constraint", for example from event to system response. Real-time programs must guarantee response within specified time constraints, often referred to as "deadlines".

Real-time computing - Wikipedia

Real-Time systems are classified from a number of viewpoints i.e. on factors outside the computer system and factors inside the computer system. Special emphasis is placed on hard and
