Security Policy and Procedures Your security needs should be based on what sort of pharmacy you run, your area of operation and general safety concerns. Pharmacies are in a unique position because they have to worry about both medical security and the same security requirements that any retail store would have.

## **How to Make a Policy and Procedure Manual for a Pharmacy ...**

The pharmacy should develop procedures to avoid handling paper prescriptions, in accordance with appropriate state laws, regulations, or executive orders. After a prescription has been prepared, the packaged medication can be placed on a counter for the patient to retrieve, instead of being directly handed to the patient.

## **Developing a Pharmacy Practice: Policies, Procedures ...**

Problem areas should be included in a pharmacy's policies and procedures manual, which requires that the manual be customized to specifically address the challenges faced by an individual pharmacy. Common problems that should be addressed could include prescriptions not being ready for patients at pickup, inventory control (too much or too little of a given drug), or issues with phoned-in prescriptions.

Basic Retail Store Policies Examples The basic rules of store operation should be simple to spell out, but it's still worthwhile getting them down on paper. Hours of operation: Employees need to know not only when the store is open to customers, but the hours for behind-the-scenes work such as closing out the till, getting change from the bank in the morning and finishing paperwork.
