You can either staple the hog panels to the posts, or sandwich the panels between 1-by-1-inch pieces of redwood to hide the ends of the wire. Most homeowners in my Northern California town are concerned about keeping deer out of gardens, so they often add a 2-by-12-inch kickboard at the bottom to make the overall fence 6 feet high.

Living fences can cost as little as \$1 per linear foot. That's a savings of \$1,450 on a 50-foot fence. And while many communities have rules restricting the construction of tall fences, restrictions governing the planting of trees and shrubs are rare. On the downside, living fences may need pruning, watering, mulching and fertilizing.

The Mason-Dixon line drew a literal barrier between slave and free states. However, in the early years of United States history, when slavery was still legal in some Northern states and fugitive slave laws required anyone who found a slave to return him or her to their owner, meaning Canada was often the final destination. Yet it was no secret ...
