### The Muscular System Manual Text

The multiple described phenotypes were eventually formalized into a classification scheme at an International Consortium on Spinal Muscular Atrophy sponsored by the Muscular Dystrophy Association (MDA) in 1991 . This classification highlighted three SMA types based on the highest level of motor function (i.e. sitting or standing) and age of onset.

### Spinal Muscular Atrophy - PMC

Spinal muscular atrophy (SMA) is a rare neuromuscular disorder that results in the loss of motor neurons and progressive muscle wasting. It is usually diagnosed in infancy or early childhood and if left untreated it is the most common genetic cause of infant death. It may also appear later in life and then have a milder course of the disease.
